7- Invasives Update
Cynthia will write a thank you note to Gretchen and Davis for their donation of the weedwhacker.

Lots of volunteer help with garlic mustard all around Town. These are soon going to seed. It's best to pull immature plants, which can be smushed on the road. If there are seeds forming (now), cut the seeds off and place in a container. The rest of the plant can be smushed on the road (dirt road- not paved) or place on side of road.

Poison Parsnip is coming soon!

8- Walks and Talks-

Mushrooms, in August. Julia Bonafine et. al. will be the guides for several different walks to various areas on the same day. This will be followed by a gathering/discussion.

9- I Naturalist, ID Wetlands-

Some Towns in Vermont are a part of an I Naturalist study documenting wetlands. People can post a photo to I Naturalist of a wetland that they find or know of.

10- Jeffords Tree-

Connie suggested a Shadberry tree from a nursery. Connie will email the Select Board asking permission to remove the existing tree. Connie will get pricing.

11- New Business
