### Map 3

#### Legend

- 2000 Foot Contour Line
- Wetlands
- Flood Hazard Area
- Agricultural Soils
- 25% Slope and Greater

Shrewsbury Town Plan  
Adopted November 20, 2013

SURFACE WATER: Data is from the Vermont Center for Geographic Information, Inc(VCGI), database Waterhydro\_VHD or the Vermont Hydrography Data set, 2004. The VHD data is a subset of the National Hydrography Data set.

ROADS: VCGI databaseTransRoad\_RDS, taken from VTRANS information, 2007.

SLOPE: VCGI database ElevationSlope\_SLOPE24, Slopes generated from USGS National Elevation Data based 7.5' DEM\_24 data, 2002

WETLANDS: boundaries are derived from National Wetlands Inventory (NWI) and the Vermont Significant Wetland Inventory (VSWI) and are approximate. Wetlands less than three acres in size may not be shown. The wetlands depicted are those regarded as regulatory by the VT Water Resources Board.

FLOOD PLAIN: FEMA Digital Flood Insurance Rate Maps (DFIRMs), August, 2008. Floodplains for planning purposes only. Refer to the VANR\_DEC, Water Quality Division, Floodplain coordinator for official floodplain determinations. (802) 241-3759.

DEER WINTERING AREAS: VCGI database EcologicHabitat\_DEERWN, taken from 1:24000 AND 1:25000 USGS topographic quads, Vermont Agency of Natural Resources, 1997.

RARE PLANT/ANIMAL SITES: VCGI database EcologicOther\_RTENATCOM, Rare, Threatened and Endangered Species & Significant Communities, Vermont Nongame and Natural Heritage Program, VANR, 2007.

  - Shrewsbury Wildlife Corridor
- Rare, Threatened and Endangered Natural Communities**
- ★ Plant
  - ★ Animal
  - ★ Natural Community

#### Shrewsbury Town Plan Adopted November 20, 2013

BLACK BEAR HABITAT: VT Fish and Wildlife Dept. Categories are based on a map titled; "Black Bear Habitat in Vermont, 1989".

DEER WINTERING AREAS: VCGI database EcologicHabitat\_DEERWN, VT Fish and Wildlife Dept. (VFWD). From 2009 - 2010, the boundaries of deer winter areas were refined by VFWD district biologists using black and white leaf-off 1:5,000 scale orthophotography (1990-1999) and was cross referenced with 1:24,000 scale 2003 NAIP (color, leaf-on) imagery to better delineate fields and open wetlands.

PRIVATE CONSERVED LANDS: land in full or partial ownership by 501(c)3 conservation organizations (VLT, TNC, GMC, and others), a subset of the Vermont Conserved Lands database, 1999, 2009.

PUBLIC LANDS: VCGI database CadastralPublands\_CONSPUB, 2009, a subset of the Vermont Conserved Lands database. It includes land owned by Municipal, State and Federal entities.

RARE PLANT/ANIMAL SITES: VCGI database EcologicOther\_RTENATCOM, Rare, Threatened and Endangered Species & Significant Communities. For the Town of Shrewsbury, this includes: Palustrine and Terrestrial Natural Communities, Vascular and Nonvascular Plants, and Vertebrate Animals. For more information, refer to Vermont Nongame and Natural Heritage Program, VANR, 2013.

WELLHEAD PROTECTION AREAS: Source Protection Areas for groundwater sources (wells, springs), 1:24,000 USGS QUADRANGLES, VANR- DEC- Water Supply Division and VT Department of Health, 2011.

WILDLIFE CORRIDOR: VT Fish and Wildlife Dept.(VFWD), VTRANS, VT Biodiversity Project, 2012. Ratings are based on predictive models developed by VFWD and further enhanced by conversations and observations with and by local residents. Areas shown on the map have a Vermont wildlife suitability analysis rating of 8 - 10.
